CD-ROM in language teaching

Half-day workshop

Workshop aims:

- 1 To provide an overview of current software
- 1 To present the benefits and constraints of using CD-ROMs in language teaching

Overview

Session one:

Part one provides an overview of current software.

Presentation will cover: *CD-ROM dictionaries / authentic discs / grammar / discs for listening / examinations / business English software.*

Part two presents a pedagogical role for multimedia as a learning tool.

Session two:

Part one offers a range of practical, user-friendly activities using CD-ROM, based on "CD-ROM: A Teacher's Handbook".

Part two covers recent developments, such as multimedia authoring and voice recognition, and allows time for questions about multimedia.

Who is this session for?

Heads of self-access centres; teacher trainers; language teachers.
